## **Introduction**

I started writing poetry in 2001 when I was a teen, and you will notice the evolution of my writing as you read each poem in succession. I don't just sit down and say "I will write a poem today", no! My poetry comes to me fully formed and demands to be written! It is raw, and straight from my mind. There are no filters.

Yes, my poetry is everything mainstream poetry is not, it is deeply emotional, depressing, paranoid and sometimes completely mad, pleading with a small amount of calm in the madness every so often with a lighter or happier poem.

What you are reading is my essence, my soul – and of course, my heart.

Wendy K. Engela

## **Season's Change**

### **Tombstone (2001)**

Where is your god now  
That darkness has fallen  
And the wounded are calling?  
Where is he  
When you need him most?

Let the darkness fall,  
Life has no meaning  
Let it all end, death comforts  
Peace only realized by war,  
Life is an empty shell.

In this hour  
When all is fading,  
When the reckoning is near,  
Where were you?  
Didn't you realize  
We are already erased  
From the stone of time?

Sum your short life  
Into a second of light.  
Was it all worth it?  
Did it really mean anything?

### **Seasons Change (2002)**

Our relationship blew over  
Like the wind on trees.  
Was I just a clover  
Crushed by the large oceans  
Of your eyes' powerful gaze.

What of the life we had?  
Were we just in the cruel maze of life,  
Between a good and a bad?

Our threads undone  
Our eyes unwon.  
Cautious lies,  
Like knives  
My heart is bleeding  
For the loss of yours.  
But as the wind leaves  
Every season, I too will  
Move on and find another  
Tree to bend.

### **Leave Me Pain (2002)**

The anger returns  
It feels good,  
Even though  
It's disguised pain.

I loved her  
I lost her  
My heart has turned  
From crimson to onyx.

How was I to know  
I would feel so much  
And so little at once.

She was everything,  
Now she is my pain.  
If only she could  
Leave my sight!

That this pain

Which returns when  
She is near  
May go with her.

**Cloudless (2002)**

The insecurities enclose  
Only fear from all those  
That don't understand,  
For love they reprimand us.

Is it that hard to believe?  
Will we ever get relief?  
We are the same  
We are just as true.

When you hear that we exist  
You don't believe! We live in mist!  
The mist of whispers in darkened  
Night of day  
As ancient drake.

Your glares try to stigmatize  
End when you fall in demise.  
Your own child! It's not possible!  
How can this be? It's uncontrollable!

We lurk in darkened corners for fear  
That one day you hear,  
Come and hunt us with trifle  
Words making us a rival.

We just want to be free,  
Why won't you let us be?  
Do we run and hide?  
Or will we stand and fight?

**Beginning Of All Ends (2003)**

The dark veil has lifted,  
Yet still I feel a shadow.  
Over it now, moved on,  
Though my heart still yearns for you.

Unsure of what to feel,

These meaningless insects  
Permanently in my mind,  
Yet you are all I contemplate.

It would have been a year  
Next month,  
It all Ended and I let it.  
I'm miserable without you!

Pleading. Come back to me!  
I'll do your bidding.  
You are the one  
Who unlocked my heart.

### **Detox (2003)**

Am I but a dream  
Being dreamt by a dreamer  
Who has never known  
The waking world?

Is this darkness  
My future or past?  
Do I exist  
In the real world?

I want out of  
This mad experiment,  
Like the white rat  
Who suffers for human comfort.

I've always heard  
The grass is always greener,  
But is there really  
Another side to see?

My thoughts are lonely
