Mechanics and Getting Started

If your team members are all alive, you can change which character faces the opponent by swiping on the left-hand side of the champion selection screen

(which is different from changing your team's set up). You are only able to select your champion when in Story Mode. You are only able to choose one champion at a time when you're in Versus Mode.

To view the possible rewards for any fight, select the plus sign directly below the 2 champions chart prior to the fight. Combo attacks can be created by mixing heavy, medium and light attacks. If you're hit, the combo is then broken.

Questing

When you're questing, the story mode is introduced. The story mainly consists of 3 main acts, so far. Acts consist of chapters and chapters consist of stages. Every stage boss must be defeated to unlock the following stage. You don't need to completely explore every area of a stage in order to unlock the following stage, as long as you defeat the boss.

Every time you win a regular match, you gain gold and experience points toward your account (which is different from champion XP). Explore progressions and boss fights give you special items like crystals and catalysts. When playing Story

Mode, your team's health points stay the same after each fight, and don't completely recover until the boss is defeated. You won't lose the progression you've made on the map, as long as your characters' health doesn't reach 0 HP. Otherwise you'll need to start over, unless you possess health points or

Recovering Potions

The best thing to do, if you choose to focus more on the Story Mode, is to keep and the units you received in the first chapter to purchase Premium Crystals. These allow you to get a champion of at least 2-stars as well as the possibility of a 4-star character. Then concentrate on levelling up the 2-star characters rather than the tier 1 ones. Energy is the only restriction, which increases each time your account levels up.

Versus Mode

With Versus Mode, you can fight with a random, machine controlled character.

You are able to use any champion you possess a single time. Afterwards, you'll need to wait for 2 hours before using that champion again. You can also use 5 units to 'recharge' the champion. Finding a match will cost you 25 gold. Currently you aren't able to choose a specific player or add it to your friend's list. Winning verses matches will get you 'versus crystals'.
