Counting on Change

Some people say that the only thing that stays the same is change.

In this world, change is something we can count on. What is here today may be gone tomorrow. Or if it is not gone, it may not be the same. Day becomes night. Seeds become plants. Food becomes waste. And you grow up and become an adult!

Yes, you can count on it. Change is here to stay!

Night turns into day.

Kids grow up and become adults.

Seeds grow into plants.
