Words in **bold** can be found in the Glossary.

People everywhere love music. Sometimes the music is singing. Other times, people play **instruments**.

A flute is an instrument in the shape of a tube. A person who plays the flute is called a flute player or a flutist. They are also called flautists. Flutes reach high notes when played.

GERMANY

Flutes go way back in history. The earliest flutes were made of bone. **Archaeologists** found a flute in a cave in Germany. It is more than 40,000 years old and made of ivory. The ivory came from a **mammoth tusk**. Today, flutes played in concerts are made of metal.
