# A QUIET RIDE

A driver walks toward his Tesla Model S. As he nears the car, the door handles pop out on their own. The driver opens the door and sits down. He presses his foot to the brake. The Model S is ready to go!

The driver shifts the car into drive and presses another pedal. The Model S bolts forward.

The **electric motor** is nearly silent as the car gains speed. In seconds, it reaches 60 miles (97 kilometers) per hour. What a smooth, quiet ride!
