Festival of Lights

The houses **shine** with lights. The roads shine, too. Lights even shine on the water! Lights are all around.

Diwali (dih-VAH-lee) is the **festival** of lights. It gets this name from lamps and candles people light.

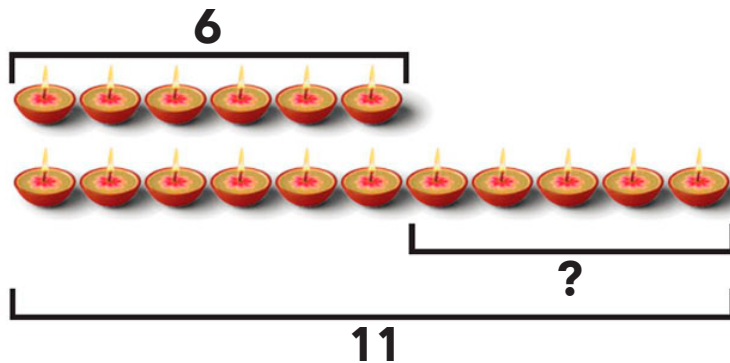

Three lit Diwali oil lamps (diyas) are shown against a dark background. The lamps are intricately decorated with colorful patterns in shades of red, yellow, green, and blue. Each lamp has a small flame, and the light from the flames illuminates the surrounding area. The lamps are arranged in a slightly overlapping manner, with one in the foreground and two behind it.

Diwali oil lamp

LET'S DO MATH!

People place candles inside and outside their homes during Diwali. Imagine that there are 6 candles inside a house. There are 11 candles outside. How many more candles are outside than inside?

1. Use the picture to solve the problem.

2. Which equation can help you solve the problem?

A. $6 + \square = 11$

B. $6 + 11 = \square$
