24 About the Author

Doctors can work in hospitals or labs.

A Woman

What happens when you get sick? Most sick people see a doctor. They take medicine and get better. But some people don't get better. They may have a serious sickness, like **cancer**. Cancer is a disease that can cause you to feel sick. It is an **abnormal** growth of **cells**. These cells can invade other areas of the body. Many people have died from cancer.

Although established in 1792, Harvard Medical School didn't admit an African American student until 1850.
