## ***How to Play hard to get***

***When a man asks you out, give him an open-ended “NO.”*** This technique keeps him chasing that bit of hope you offer him. You may claim that you aren't available even if you will be around for the whole weekend. You could tell your man “NO” but tell him about an interesting place you want to see. Or, you may choose not to commit to a date, while telling your suitor to wait and see.

***Take long to respond to his calls and texts.*** If you choose to respond to his calls and texts, you can make up an excuse about how too busy you were. You can excuse yourself by claiming that you were at a party or hanging out with someone else. By doing this, you are showing him that you are a busy lady and not so dependent on spending your free time with him.

***Prove to him that you have various options to choose from.*** A lady playing hard to get will want to look hard to get. It's her technique of proving to you that she has several suitors to choose from and could be taken by someone else at any moment. You can choose to take your handsome friends to parties to make your man jealous.

Tease him about the many people who have attempted to hit on you, but failed. You may seem like you are ridiculing them, but you are really pointing out to him how attractive you are.

***Understand the dating culture.*** Understand this. You can have casual sex, but first, understand today's dating culture. Most men love casual sex, but they are reluctant to commit to a lady who is so willing and desperate to sleep with them. Regardless of how much you want to have sexual intercourse with him, don't give in just yet. The moment you sleep with him, it's game over in playing hard to get. Although you find him so attractive, don't give in early!

*Avoid being so willing to accept him.* Most men are strange. They want you to be interested in them, but again if you are so enthusiastic, it's a red flag and they get bored having you. This is why you should play the game, and beat them at their own game.

Instead of replying to his advances immediately with, "Yes, I'd love to," "Sure, I just need to double-check something and see if I have enough time." Doing this proves to him that you're interested, but he's not the number one priority for you. When you do this, your man would work hard to become a huge priority in your life.

*You should put in some effort.* Playing hard to get is not solely about being aloof and emotionally distant. Most people get this wrong, but that's not how it works. It's not all about being hot and cold. Chasing becomes more fun the closer you think you are to getting what you desire.

However, this means you're also going to have to chase him to keep the tension going. So, you should also master how to make him chase and miss you more.

*Don't become so personal.* For the start, the odds are you don't really know so much about this man, which is totally fine. But, don't allow this man to know everything about you. This is an essential tip in case you truly want to learn how to play hard to get with the guy of your dreams.

Here, you shouldn't go around revealing each detail in your personal life to this guy you admire; spare some details for later! Doing this will give him something to look forward to.

*Don't inform him that you like him.* Yes, you may be tempted to inform him how you feel, but you don't have to do this. In fact, if you want to know how to play hard to get with a man and make him pursue you, you should keep him guessing. It's all part of keeping
